General Information

TO REPORT TROUBLE
If you need assistance in dialing, or if you repeatedly fail to obtain a number, or, in the event of any trouble on your line, dial "0". The operator will answer and assist you.

TO CALL THE TELEPHONE COMPANY
If you wish to communicate with the Telephone Company relative to accounts, orders for service, moving telephones, etc., call the Agent by dialing "201."

MOVING AND DISCONNECTING TELEPHONES
When a telephone is to be moved, at least ten days' notice is desired. When sufficient notice is given, the order will be completed on a specified date. If no particular date is specified, the order will be completed as promptly as possible.

Service will be promptly discontinued upon receipt of proper notice.

EMPLOYEES' CREDENTIALS
All employees of the Telephone Company authorized to enter buildings for the purpose of making collections, or installing, repairing, or removing instruments or wires, etc., are provided with a badge, and the public is warned that parties desiring to enter premises for telephonic purposes should exhibit their badge upon request or be refused entrance.

ATTACHMENTS TO TELEPHONES
The telephone instrument is the property of the Telephone Company. It embodies all improvements essential to the furnishing of the highest grade of service to our subscribers. The attachment to the telephone line or instrument of any device, instrument or appliance of whatever character not furnished by this Company is entirely unnecessary and interferes with the service. Therefore, in the interest of good service, subscribers are requested not to permit the use of such attachments. Further, the protection of the service requires that when such attachments are found they be immediately removed.

HOW TO USE THE TELEPHONE
If you are not sure of the number, look in the directory. If the number is not in the directory, call the Operator by dialing "0" and ask for the number.

Let us assume that the number you are calling is 1234.

Remove the receiver, and keep it off while dialing.

Listen for the dial tone, which is a steady humming sound. Do not dial until you hear this sound.

Place your finger in the dial opening over the figure "1."

Turn the dial clockwise until your finger strikes the finger stop.

Remove your finger and allow the dial to turn back. Do not touch the dial while it is returning.

Proceed in the same way with the figures 2-3-4.

After you have dialed, if you hear an interrupted "buzzing" sound, the called telephone is being rung.

If you hear an intermittent "buzz-buzz-buzz" sound, the called telephone is busy, and you should hang up and dial again later.

If you make a mistake in dialing, hang up for a few seconds and begin again.

After making a telephone call, replace the receiver for a few seconds before attempting to make another call.

TO CALL ANOTHER PARTY ON YOUR LINE
If you are on a party line you can recognize the telephone number of the other party on your line by the fact that it commences with the same three figures as your own number. For example, if your number is "3456", the number of the other party on your line will commence with "345".

To call a party on your own line do not dial the directory number, but instead dial "9" followed by the last figure of your number, and the last digit of the number you wish to call. Then hang up your receiver, and the bell on your telephone as well as the bell on the telephone of the party you are calling will ring intermittently until your call is answered. When your bell stops ringing, it indicates that the party called has answered. Remove the receiver and proceed with your conversation.

For example, if your number is "4366" and you want to talk to "4367," dial "9," then the last figure of your number—"6"—and the last figure of the number you want to call—"7."

If your bell does not stop ringing after a reasonable period, it indicates that there is no one to answer at the called telephone. Remove your receiver for a few seconds and then replace it. This will stop your bell from ringing and disconnect you from the called telephone.
Long-Distance Telephone Calls

There are two major classes of long-distance telephone calls:

1. STATION-TO-STATION CALLS. You call a particular telephone but not a particular person, and you pay if someone answers at that telephone, no matter who it is. Reduced rates apply from 7 p.m. to 4:30 a.m. on weekdays and all day on Sundays.

2. PERSON-TO-PERSON CALLS. You call a particular person and pay if you talk to him. Reduced rates apply from 7 p.m. to 4:30 a.m. on weekdays and all day on Sundays.

Under the general classification of person-to-person calls, two special types of service are also offered to meet certain requirements:

(a) APPOINTMENT CALLS. At your request, “Long Distance” will arrange with the called party for you to talk with him at a specified time. For this type of call there is no additional charge above the regular person-to-person rates.

(b) MESSENGER CALLS. When necessary, a messenger at the distant point will be sent to call the desired person to the telephone. The actual cost of the messenger is additional to the person-to-person rate and is charged irrespective of the conversation being held.

REPORT CHARGE
A nominal charge known as a Report Charge is made under certain conditions, such as on uncompleted person-to-person, appointment, messenger and collect calls if the called telephone is reached but communication is not established for reasons beyond the control of the Telephone Company.

TIME OF DAY
The time of day when conversation actually starts, determined in accordance with the time system in use at the point where the call originates, decides whether day or night rates apply. This rule applies irrespective of whether the call is sent paid or collect. In cases where a message begins in one rate period and ends in another, the rate in effect at the time conversation starts applies to the entire conversation.

RATES
For both station-to-station and person-to-person calls, there is a day rate from 4:30 a.m. to 7 p.m. and a night rate from 7 p.m. to 4:30 a.m. The night rate is lower than the day rate. On Sundays the night rate is in effect all day.

Rates for calls to some points are listed on the next page. For further rates, call the operator.

CALL THE OPERATOR
When you wish to place a long-distance call, dial “0”, and give the details of your call to the operator who answers.

PLACING A PERSON-TO-PERSON CALL
If you are placing a person-to-person call, give the name and the telephone number of the party you are calling, also the name of the community in which he is to be found, and then give your own name and the number of the telephone from which you are calling. For example:

“I want Mr. W. R. Brown, Seymour-4567, Vancouver. This is A. E. Jones, 123.”

If you do not know the telephone number of the party you are calling, give his street address.

PLACING A STATION-TO-STATION CALL
If you are placing a station-to-station call, give the number of the telephone you are calling and the community in which it is, and then give your own name and the number of the telephone from which you are calling. For example:

“I want Seymour-4567, Vancouver. This is A. E. Jones, 123.”

If you do not know the number of the telephone you are calling, give the operator what information you can. For example:

“I want anyone at W. R. Brown’s telephone, 789 Granville Street, Vancouver. This is A. E. Jones, 123.”

HOW TO REVERSE THE CHARGE
Upon request of the calling party, the charges on a call will be collected at the called telephone, provided that such charges are accepted by the called telephone. Request to have the charges collected in this way should be made at the time the call is given to the long-distance operator. Simply say: “Please reverse the charge.” On a station-to-station call for which the initial rate is less than 25 cents, the charge is slightly higher if it is reversed.

REQUEST FOR CHARGES
When notification of the amount of the charge on a call is desired, it will save time to advise the long-distance operator at the time the call is placed. When such information is not requested until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charges.

REQUEST FOR REPORT ON THE PROGRESS OF A CALL
If it becomes necessary to ask for a report on the progress of a call, be careful to avoid giving “Long Distance” the impression that you are placing a new call. When the long-distance operator answers, ask for a report, mentioning the name of the called place and then your name and telephone number. Say, for example: “Please report on my call to W. R. Brown, Seymour-4567, Vancouver. This is A. E. Jones, 123.”

GIVE CALLED NUMBER WHEN POSSIBLE
Faster service will be obtained if you give “Long Distance” the telephone number of the party you are calling.
Long-Distance Telephone Rates

FOR RATES TO OTHER POINTS, CALL THE OPERATOR.
All rates shown are for a three-minute initial period.

GENERAL

Telephone service is furnished subject to the following general regulations which shall apply in addition to the service charges contained in the tariff applicable to the type of service involved.

These regulations shall apply to all contracts for telephone service and to all services rendered under such contracts and cannot be varied or waived by any canvasser or other person.

ESTABLISHMENT AND FURNISHING OF SERVICE

APPLICATION

Application for telephone service shall be made on the Company's standard forms which become contracts upon the establishment of the service. All the regulations contained in the tariff shall be part of such contracts for service and all facilities and service rendered thereunder are subject to the Company's tariff, rules and regulations as on file at the Company's business office. Requests from subscribers for additional service or equipment shall be made in writing. Upon approval or installation thereof, such service or equipment is deemed to be covered by the original contract, except that such item of additional service or equipment so installed is subject to the appropriate minimum contract term in accordance with the Company's regulations governing initial contract periods, and to the tariff charges. Any general change in the Company's tariffs, however, may require a further advance payment from the subscriber to cover the alteration of all contracts so as to render such contracts in conformity therewith, and such alteration shall take effect without notice. The subscriber shall not assign his contract with the Company nor any rights thereunder.

ADVANCE PAYMENTS

At the time of application for service, the applicant will be required to pay the proper service charges and for service rendered thereunder. In addition to the advance payment therein provided, an applicant or subscriber, whose credit standing is not established to the Company's satisfaction, may be required to make a further advance payment of an amount which the Company considers sufficient to cover not more than six months' charges for exchange service, toll service, equipment, mileage, listings, and all other services and charges for which the Company is entitled to receive payment. Charges for service rendered are applied against such advance payment. If, in the opinion of the Company, the subscriber's net credit balance is at any time insufficient to cover the estimated service charges referred to, the Company may require a further advance payment or suspend and terminate service in accordance with the regulations contained in the tariff.

INSTALLATION OF WIRING

Except where otherwise provided in the Company's tariff or by special agreement, all work of installation of wire and equipment on the applicant's premises is done by the Company, and the Company attaches its instruments, equipment or lines only to wiring installed by its own employees.

TELEPHONE NUMBERS

The subscriber shall have no property right in the telephone number assigned to him, and the Company may change the telephone number at its own discretion.

ALTERATIONS

The subscriber shall be required to notify the Company promptly in writing whenever alterations or new construction on premises occupied by him necessitate changes in the Company's wiring or equipment. The Company's regular charges apply to such changes.

PAYMENT FOR SERVICE

Charges for telephone service, equipment and facilities shall be rendered monthly and are due on the date specified by the Company. Charges due in connection with toll, messenger or coin-box service shall be payable monthly or upon request. Advance payments, construction, installation and service connection charges shall be payable in accordance with the regulations here or elsewhere contained in the Company's tariff.

In all accounts excepting for net rate contracts, the sum of one dollar will be added to the monthly charge, but such sum shall be rebated by the Company provided the account is paid on or before the due date.

If for any reason charges are not paid by the due date, but paid within one month of the date of issue of the account, the one dollar added to the monthly charge shall be rebated provided the subscriber pays (in addition) one month's rental in advance.

All charges incurred by the subscriber are payable at the Company's business office or at any agency duly authorized to receive such payments.

Failure to receive a bill making the amount owed by the subscriber to the Company, or to relieve the subscriber from the responsibility of making prompt payment of such amount to the Company, shall not be responsible for the Company for all tolls and charges for all calls originating on his telephone or for which the charges are reversed and accepted, regardless of who may have originated or received such calls. The Company, however, reserves the right to collect such charges from the person placing the call or who may otherwise be responsible for the call.

Messengers may be used, if available, at the request of the person placing a toll call, in trying to locate the called person where he cannot be reached by telephone, provided the calling person agrees to pay the cost of such service.

If objection in writing is not received by the Company within thirty days after a statement of account is mailed, such statement deemed to be correct and binding upon the subscriber.

MAINTENANCE AND REPAIRS

All ordinary expense of maintenance and repairs, unless otherwise specified in the subscriber's application or in the Company's tariff, is borne by the Company. Upon termination of service any equipment furnished by the Company shall be required to be in good condition, reasonable wear and tear excepted. In the case of damage to or destruction of any such equipment, not due to ordinary wear and tear, the subscriber, on demand, shall pay to the Company the cost of replacing the equipment or of restoring it to its original condition. The subscriber shall not rearrange, disconnect or remove, or permit others to rearrange, disconnect or remove, or otherwise interfere with or new construction on premises occupied by the Company, except with the written consent of the Company.

The Company reserves the right to enter into agreements with railroad companies or other parties whereby they may be required to install and maintain telephones and telephone apparatus furnished by the Company. When such telephones and apparatus are located on the railroad premises or in other places involving unusual hazards, or when it is convenient to both parties to do so.
TELEPHONE DIRECTORIES

OWNERSHIP AND USE

The Company shall be under no obligation to issue directories but if the Company does issue to its subscriber telephone directories containing the listings of subscribers within a specified area, such directories shall remain the property of the Company and, if requested, shall be surrendered to the Company upon termination of service or upon issuance of new directories in an acceptable condition as when received, reasonable wear and tear excepted. Directories furnished by the Company are not to be removed from the subscriber's premises or altered and no labels or stickers are to be affixed thereon, nor any changes made therein not authorized by the Company. No binder, holder or auxiliary cover, except as may be supplied by the Company, is to be used in connection with any directory furnished by the Company.

The contents of telephone directories shall not be published or reproduced in any form whatsoever, without the consent of the Company.

In the case of any breach of these conditions, the Company may rescind possession of the directory.

DISTRIBUTION

Directories shall be furnished to subscribers without charge in such numbers as the Company may require. No directory furnished contains private service. The Company may make a charge for directories furnished to subscribers in excess of reasonable requirements. Listings of directories lost, destroyed or mutilated by subscribers shall be under no liability.

TERMINATION OF SERVICE

Service may be terminated prior to the expiration of the initial contract period upon ten days' notice in writing being given to the Company, and upon payment of the termination charges stated below in addition to all charges due for service which has been furnished.

In the case of service for which the initial contract period is one month, the charges due for the balance of the month shall be paid.

In cases of paid directory listings and joint user service, where the listing has appeared in the directory, the charges due to the end of the directory period shall be paid, except that under the following conditions the termination charges shall be the charges due to the time notice of cancellation is received by the Company, subject to a minimum charge equal to the charge for one month.

When the contract for the main service is terminated.

When the listed party or Joint user becomes a subscriber of another service.

When the listed party or Joint user moves to another location, and becomes a listed party or Joint user at that location.

In the case of private branch exchange service for which the initial contract period for service is one year or more, the termination charge shall be the charges due for the balance of the contract period.

In the case of special equipment and facilities for which the initial contract period for service is in excess of one month, the termination charge shall be the charges due for the balance of the contract period.

Service may be terminated prior to the expiration of the initial contract period upon ten days' notice in addition to all charges due for service which has been furnished, under the following conditions:

In the case of condemnation, destruction or damage by fire or other causes beyond the control of the subscriber, necessitating abandonment of the premises, effective from the date that the Company shall be advised thereof.

In the case of death of the subscriber, death of a listed party in connection with the charges for the initial contract period, or joint user only, effective from the state the Company shall be advised thereof.

In the case of services for which the initial contract period is one month, where the subscriber's service is suspended by another service on the same or different premises, effective from the date of the termination of the old service, except that termination charges shall apply to service and facilities not retained.

When there is a transfer of service by which facilities of the discontinuing subscriber are contracted for by the new subscriber, the termination charges shall apply to service and facilities not retained by the new subscriber.

Service may be terminated by either party after the expiration of the initial contract period upon receipt of ten days' notice in writing and upon payment of all charges due for service furnished.

OBLIGATION AND LIABILITY OF THE COMPANY

SERVICE INTERRUPTIONS

The Company does not obligate itself to transmit messages but offers the use of its facilities for communication between parties within an exchange area or between exchange areas, each party owning an interest at a telephone, or from such parties to the toll switchboard or switchboards. The Company will assume no responsibility. In the event of messages being transmitted by its employees orally, by telephone or by messengers, the Company does not guarantee uninterrupted working of its lines and equipment and shall not be liable for any loss or damage that may occur in the event that service is interrupted by any cause whatsoever.

DIRECTORY LISTINGS

The Company shall only be required to list a subscriber's telephone under the subscriber's own name; and if, at the request of a subscriber, it inserts any additional name or advertisement in its directories or elsewhere, the Company shall have the right at any time, and from time to time, to alter such additional name or advertisement to the name of the subscriber, notwithstanding anything contained in any contract with the Company.

The Company shall not be liable for damages arising from errors in or omissions of free directory listings: and in the case of paid directory listings its liability shall be limited to making a refund or cancellation of fees computed on the basis of the rate charged for each such listing for the period during which the error or omission continues.

No listings shall attach to the Company by reason of the continuation of the subscriber's directory listings after the termination of the subscriber's contract.

In accepting listings the Company shall not be responsible for the results of their publication in its directories, nor shall it be a party to controversies arising between subscribers or others as a result of listings published in its directories.

USE OF OTHER COMPANIES' LINES

When the facilities of other telephone companies are used in establishing connections to points not reached by the Company's lines, the Company shall not be liable for any act or omission of any other company.

DEFACEMENT OF PREMISES

The Company shall not be liable for any defacement or damage to the subscriber's premises resulting from the existence of the Company's equipment and wiring on such premises or by the installation, maintenance or removal of the same. In cases where the subscriber is not the owner of such premises, the subscriber shall indemnify and save the Company harmless from all such liabilities.
EXCHANGE AND MILEAGE AREAS

The Company may, at any time, change or modify exchange area boundaries or radii beyond which service is furnished. Subscribers affected by such changes may, at their option, terminate their contracts for telephone service forthwith upon paying all charges due up to the date of termination. Where, however, the subscriber elects to retain the service, it is furnished only in conformity with the new exchange area limits and regulations prescribed in the Company’s tariff.

VIOLATION OF COMPANY REGULATIONS

In the event of default on the part of the subscriber in making payment of any sum due the Company, including connecting companies’ charges, or in complying with the rules and regulations of the Company which govern the services rendered, the Company may, without notice, suspend the service which it furnishes under any or all service contracts with the subscriber without terminating such service contracts, until all sums due have been paid and all violations have ceased or been remedied, or may terminate any or all service contracts with the subscriber either without or following suspension of service. Such action by the Company shall not affect the subscriber’s liability for the payment of all charges owing to the Company.

INITIAL CONTRACT PERIODS

GENERAL

The initial contract period for all services and facilities furnished by the Company shall be one month, except as stated hereinafter and as may be specifically provided in other sections of the tariff.

PRIVATE BRANCH EXCHANGE SYSTEMS

The initial contract period for manual cordless dial cordless and manual cord non-multiple private branch exchange systems, excluding trunks and stations, shall be one year.

The initial contract period for manual cord multiple and dial cord non-multiple and multiple private branch exchange systems other than hotel systems, excluding trunks and stations, shall be from three to five years at the discretion of the Company. When additional switchboard positions are installed in connection with manual multiple private branch exchanges or when additional equipment, such as switches, switch frames or power apparatus, which entail large installation costs, are installed in connection with dial private branch exchanges, such additional equipment is installed subject to an initial contract period of from three to five years.

The initial contract period for hotel private branch exchanges shall be determined by the Company in each case, having regard to the equipment provided.

SPECIAL NON-STANDARD EQUIPMENT

An initial contract period of longer than one month may be required when special non-standard equipment and special assemblies of equipment are furnished or when equipment is specially installed for a subscriber.

DIRECTORY LISTINGS AND JOINT USER SERVICE

The initial contract period for directory listings and joint user service where the listing actually appears in the directory, shall be the directory period.

USE OF SERVICE AND FACILITIES

OWNERSHIP AND USE OF EQUIPMENT

Equipment and wiring on the subscriber’s premises, furnished by the Company, shall remain the property of the Company. The agents and employees of the Company shall have the right to enter the subscriber’s premises at any reasonable hour for the purpose of installing, inspecting, repairing or removing such equipment and wires, or for the purpose of making collections from coin-boxes. Such equipment shall also be used for personal or private use, the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid to the Company, without the written consent of the Company.

USE OF SUBSCRIBER SERVICE

Subscriber telephone service as distinguished from public, semi-public and hotel telephone service, shall be furnished only for communications as follows:

In the case of business service, by the subscriber, the agents or representatives of the subscriber and permanent guests or tenants residing in a club or lodging house.

In the case of residence service, by the subscriber and members of his domestic establishment.

The use of the service may, with the Company’s permission, be extended to joint users and to persons temporarily subleasing the subscriber’s residential premises.

At locations where, in accordance with the Company’s definition of business and residence service, business rates should apply but residence rates are being charged, the Company may therefore charge the business rate applicable without the execution of a new application, upon notice given to the subscriber to that effect.

The Company may refuse to furnish subscriber service on premises of a public or semi-public character when the telephone instrument is or would be located so that the public might make use of the service.

The use of the Company’s service for annoyance to other persons or impersonating any individual, and the use of offensive language while using or conversing over the Company’s service, is not permitted. The Company may terminate the service of any subscriber who commits any breach of this regulation or who permits any person to use the telephone or service furnished such subscriber contrary to this regulation.

USE OF PARTY-LINE SERVICE

The Company may limit conversations on party lines to five minutes when longer conversations interfere with the use of the service by other subscribers on the same line.

When the use of the service by any party-line subscriber is sufficiently great to prevent a fair and proportionate use by other subscribers on the line, the Company may require the subscriber to contract for another grade of service or terminate the service of such subscriber.

NO-APPROVED DEVICES

The subscriber shall not use or permit to be used any electrical or mechanical apparatus, in connection with the equipment or facilities furnished by the Company, without the written consent of the Company, or permit the attachment of any device, or devices thereto. If any apparatus connected to any kind other than those furnished or approved by the Company are attached to any apparatus of the Company’s property, the Company may remove such apparatus or devices or terminate the service.
